DETAILED ACTION

Election/Restrictions

The present claims are seemingly directed towards a heart valve replacement implant.

This application contains claims directed to the following patentably distinct implant species of the claimed invention:

Species 1: shown in figures 5-8 and 10

Species 2: shown in figures 11-12

Species 3: shown in figure 13

Species 4: shown in figure 14

Species 5: shown in figures 15-21

Species 6: shown in figures 22a-22b

Species 7: shown in figures 23a-23d

Species 8: shown in figure 24

Species 9: shown in figure 25a

Species 10: shown in figure 25b

Species 11: shown in figure 26

Species 12: shown in figures 27a-27c

Species 13: shown in figures 28a-28d

Species 14: shown in figures 29a-29d

Species 15: shown in figures 30a-30b

Species 16: shown in figures 40-44

Species 17: shown in figures 51-54

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Jones Day on March 12, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3738

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
